# TERMS OF SALE

## PLEASE READ BEFORE BIDDING.

All bids are entered as received and lots distributed to the highest bidder without reserve. When two or more bids are the same, the first received gets the lot. When two or more unlimited bids on a certain lot are received, the first one received gets the lot at an advance of 5% over the highest bid.

When I receive your bids, I consider myself as your agent and buy the lot for you as much under your bids as the next highest bid will permit. I simply execute your bids for you as faithfully as if you had yourself been present at the sale.

## I CHARGE NO COMMISSION FOR EXECUTING BIDS.

Lots sold as catalogued. No lot is broken under any circumstances. Bid by number of lot and at SO MUCH PER PIECE. If there are ten pieces in a lot and you want to offer \$1.00 for the lot, make your bid 10c.

I guarantee all coins and notes to be genuine unless otherwise stated in the catalogue. This guarantee holds good indefinitely.

**TERMS:** The terms of auction sales are strictly cash. Parties unknown to me must send a deposit covering at least 25 per cent. of their bids or send satisfactory reference, otherwise they will not be accepted, as I cannot be expected to ship goods to parties whose good standing is not known to me.

Remittance should be made promptly in any way most convenient to yourself.

A neatly printed list of prices of this sale, showing amounts realized for each lot, will be sent for only 50c, **CASH WITH ORDER.** This is surely the cheapest and best method to keep posted on the prevailing prices of coins.

**PLEASE SEND IN YOUR BIDS EARLY.** All bids must be in on or before Saturday, January 30, 1915.

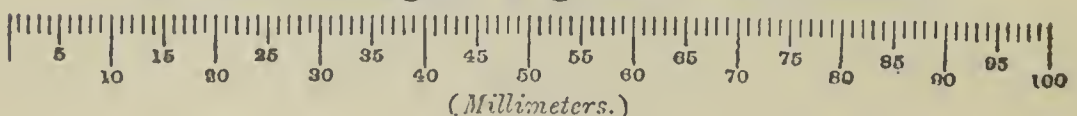

If you have any coins that you want to sell either at auction or private sale, write me for terms.

## NOTICE TO NEW BIDDERS.

Buying coins at auction sales is not the same as receiving coins on approval. The coins are bought for you on your order and you are of course expected to accept and pay promptly for them. Auction purchases are strictly net cash. Be careful in making your bids. Be sure that you bid for the lot you desire and at so much **PER PIECE.** Read the terms of sale before bidding.

## THE SIZE OF COINS AND MEDALS

### LARGE UNITED STATES CENTS.

Including the Excessively Rare 1793 Crosby 8-F.

- 574 1793 Chain, AMERI. Vine and bars on edge. Crosby 1-A. Obverse, very slight marks of corrosion, hardly noticeable, otherwise free from any nicks or dents. Well centered and evenly struck. Strictly very good, and for coin, can be classed as fine. The rarest type of all cents.
- 575 1793 Chain, AMERICA. Without period after date. Crosby 3-C. Very light dent on edge, otherwise good. Very rare.
- 576 1793 Wreath type. Crosby 11-J. The left leaf of sprig rises upright close above the 9. Edge lettered ONE HUNDRED FOR A DOLLAR. Very good, but surface corroded, but not rough. Rare.

- 577 1793 Wreath. Crosby 8-F. Strictly very good, with some claim to fine. Perfectly centered, well struck with a nice even light brown surface. Excessively rare. Only two or three specimens known. This type is practically distinct from the other types of this date; the locks of hair are cleanly and singly cut, and distinctly separate; P is over the hair. The letters of the legend are slightly smaller and more regular in size and more widely spaced. The date is widely spaced, the stem of sprig starts from just above the left of 9.

As to the rarity of this cent, the following is an excerpt from the work by Mr. Crosby:

"The discovery of this obverse was a curious instance of the appearance of a new die after a search of many years over a large field. Nearly ten years after the publication of the article on these Cents in the Journal of Numismatics, in 1869, when we had most of the important collections at our service, and a thorough search had been made in all directions, a lot of about seventy-five worn-out 1793 Cents was sent me from Philadelphia, for examination. Among these I found two pieces from a die hitherto unnoticed, the only feature sufficiently preserved to distinguish them being the sprig under the bust. I learned of no similar piece for another ten years, when a better specimen was shown me, belonging to Mr. Henry Phelps, of Worcester, Mass., but in the Windsor sale of 1895, a fine and well-preserved specimen was discovered and purchased by its present owner, Dr. Thomas Hall, of Boston, and was by him alone recognized as from this rare die. This is the piece represented upon the plate. The two worn pieces first found are still in my possession, but are in so poor condition that they should not be considered as affecting its rarity, which should be estimated as only short of unique."

None of the largest collections offered in recent years had a specimen of this rare variety. Mr. Stephens procured this prize in England several years ago and values it at \$50.00.
